Charitable Dental Care Standardized Form

Dentists are called upon, on a regular basis, to provide charitable dental care within their community. It has become very clear that Michigan legislators are interested in the charitable care given by dentists, especially through the Donated Dental Services and the Give Kids a Smile Program. Even with these organized programs, the tracking of charitable dental care, provided by dentists, remains difficult.

After you have completed any charitable dental care, please complete and mail, fax, or e-mail this form to the Michigan Dental Association. This will assist the MDA with its lobbying efforts and help to insure that Michigan dentists are recognized for doing their part in addressing the oral health needs of those unable to pay for services. Do not report the value of any services that are already being reported to the Donated Dental Services program, as those will already be recorded. Feel free to report the amount of a charitable discount given as well, even if the patient did pay for part of the services. Your participation will be very beneficial towards further enhancing our image as a profession, and is greatly appreciated.

Local Dental Society	**Patient Age** Minor (0-18); Adult (19-64); Senior (65+)	**ADA Procedure Code**	**$ Value of charitable treatment**

Please return form to:
Michigan Dental Association
230 N. Washington Sq., Ste. 208
Lansing, MI 48933
Fax: 517/372-0008
e-mail: kdixon@michigandental.org

If you would like to download this form from the MDA website visit the dental professionals section at www.smilemichigan.com. If you would prefer to have this document in a Word format, please contact the MDA and it will be e-mailed it to you.
